Message: Greetings Director and Board Members.

I am writing to request the installation of 2 Picnic Tables in Woods Yards Park at each end of the children's playground. There are two open spaces at the East and West sides of the children's playground, protected with concrete high pillars painted in a children's design. These spaces are large enough and perfectly suited for two 8' long metal picnic tables. Preferably bolted to the concrete. These two areas look like they were originally designed for picnic tables. The type I recommend is metal mesh with thermal plastic finish for its sturdiness. This is the type I saw in Heavenly this weekend. If these tables can withstand the weather and use they get at the end of the Tram then they surely they can survive Woods Yard. I prefer the second one I highlighted for its Blue color. A special attraction for children.

Many individuals are currently employed in and around the Park and in nice weather it would be good to have a comfortable place to sit down and eat lunch or talk with friends. As you are well aware there is no comfortable place to sit in Wood Yard except inside the Children's Playground and that is not appropriate unless you are with children. There is the concrete barrier to the grassy area but that is not really for sitting. I never see people sitting on the wood covered concrete between the pillars although the very small tables at the extreme West and East do get some use but are small. As someone who uses the Park to read and relax. I hope you will consider this proposal seriously. It would be a big addition and an attractive compliment to a much used Park at a small cost. It can also be a not so subtle hint of the work of the GBD by having a local artist paint the top of the tables with a reminder as to who is responsible for this fine convenience.

Thank you, Michael Spain
